Parent Connect Application

Zangle ParentConnect is a web-based tool that allows parents to be more in touch with their student's education. Using a confidential PIN number and password, parents are able to track daily attendance, view report cards, class assignments, class schedules, graduation requirements and more.

With ParentConnect you can access the data for all of your children enrolled in Nuview Union School District with just one PIN number and password.

Complete a Parent Connect Application and return it to Mrs. Garcia in the office. Parent Connect User IDs and Passwords will be given only to parents/guardians that are listed on the student's emergency card. Personal identification will be required in order to complete this process. Thank you for your interest in Parent Connection.
